EDUCATION

Moi University -*Uasin Gishu, Eldoret*

Bachelor of Science in Computer Science.

- **Expected Graduation:** December 2027
- **Concentration:** Software Engineering
- **Completed Coursework:** Software Engineering, Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Operating Systems, Computer Networks, Artificial Intelligence
- **Relevant Coursework:** Full-stack development (MERN Stack), Spring Boot, Network Engineering (CCNA)

EXPERIENCE

Watoto ni wetu Foundation *Feb 2025 – Jun 2025*

Web developer:

- Provided front-end development support, creating visually appealing designs that aligned with brand standards.
- Enhanced user experience by implementing responsive web design and optimizing website performance.
- Coded websites using React Js and CSS.

Live Demo: WWFoundation

PROJECTS

Tasktracker *Sept 2025 – Jan 2026*

- Designed and developed TaskTracker, a full-stack web application using the MERN stack (MongoDB, Express.js, React, Node.js)
- Implemented features including JWT-based authentication, role-based access control, CRUD operations for goals, daily objectives, upcoming events and team tasks, file uploads with Multer & Cloudinary integration, and RESTful APIs.
- Integrated MongoDB for efficient data management of users, teams, tasks, submissions, and calendar events.
- Deployed the frontend and backend using heroku to ensure scalable and reliable access.

Live Demo: Tasktracker

SimplyRecipes Aug 2024 – Nov 2024

- Built a responsive recipe web app using React.js and CSS.
- Integrated TheMealDB API to fetch meals, ingredients, and preparation instructions dynamically.
- Implemented search functionality and managed state using React hooks.
- Deployed the application on GitHub Pages for public access.

Live Demo: SimplyRecipes

AssignHub Mar 2026 – Apr 2026

- Developed a full-stack academic system using Spring Boot, React and PostgreSQL for managing assignments and submissions.
- Designed normalized database schemas with One-to-Many, Many-to-One and join entities to model student, unit, assignment, and submission relationships.
- Built RESTful APIs for assignment creation, submission handling, grading, and feedback.

Pixel Studio April 2026

- Designed and developed a responsive website prototype for a photography studio.
- Built an intuitive UI to showcase photography services and studio information.
- Created a session booking interface focused on user experience and accessibility.
- Developed interactive frontend components using HTML, CSS, and JavaScript.

Live Demo: Pixel

SKILLS

- **Programming Languages**: Java, JavaScript.
- **Technologies:** Spring boot, Microservices Architecture, REST APIs, Docker, Node.js, Express.js, React, HTML, CSS.
- **Networking:** TCP/IP, Routing & Switching, Subnetting, VLAN Configuration.
- **Tools:** Git, GitHub, VS Code, Postman.
- **Databases:** PostgreSQL, MongoDB.
